SkillBridge Africa Business Model Canvas & Supporting Sections

1. Global Overview for the Market

The global freelance economy has grown rapidly due to digital transformation, remote work, and increasing internet accessibility. Africa is also experiencing growth in the digital economy, especially among youth entrepreneurs and students. Botswana's growing internet penetration and smartphone usage create an opportunity for SkillBridge Africa to provide a locally adapted freelance platform that connects skilled students with businesses and individuals.

2. SMART Objectives

• Acquire at least 500 registered student freelancers within the first 12 months.
• Achieve 300 active monthly users by the end of Year 1.
• Generate at least BWP 120,000 revenue within the first 18 months.
• Partner with at least 5 tertiary institutions within 2 years.
• Expand into at least 2 African countries within 5 years.

3. Market Analysis (TAM, SAM & SOM)

SkillBridge Africa targets tertiary students, SMEs, and individual clients seeking affordable freelance services in Botswana.

4. Executive Summary

SkillBridge Africa is a student-focused digital freelance marketplace designed to connect verified tertiary students with businesses and individuals seeking affordable services. The platform addresses youth unemployment in Botswana by enabling students to monetise their skills while helping SMEs access affordable talent. The platform includes escrow payment protection, local payment integration, and smart matchmaking features tailored for the Botswana market.

5. Pricing Strategy Determined by Customers

• 10% commission per completed transaction.
• Premium freelancer subscriptions.
• Featured listings and advertisements.
• Market-oriented pricing strategy focused on affordability.

6. 3-Level Organogram

Level 1: CEO, CTO, CFO
Level 2: Marketing Manager, Operations Manager, Customer Support Manager
Level 3: Developers, Sales Representatives, Customer Support Staff, Campus Ambassadors

7. Breakeven & Income Statement Summary

SkillBridge Africa is projected to become cash-flow positive by Month 2 based on low startup costs and increasing platform transactions.

Market Level	Definition	Estimate
TAM	All tertiary students and SMEs in Botswana	~79,000 users
SAM	Digitally active students and SMEs	~42,000 users
SOM	Realistic market capture in Years 1–3	420–1,260 users

Income Statement (First 3 Months)

Month	Revenue (BWP)	Expenses (BWP)	Profit/Loss (BWP)
Month 1	1,750	780	970
Month 2	3,200	804	2,396
Month 3	4,350	722	3,628
